LEADERSHIP BY DESIGN

P R O D U C T R E F E R E N C E G U I D E

OVER 40 YEARS OF INDUSTRY LEADERSHIP AND INNOVATION

Berry Plastics' commitment to its leadership position and its desire to be a world-class company is summarized in its Quality Vision statement:

Provide the highest quality products and services that consistently exceed customers' expectations and our competitors' capabilities by utilizing:

- Modern technology,
- Dedicated and skilled employees, and
- A spirit of teamwork.

TECHNOLOGY ADVANCEMENTS:

- Injection Molding
- Compression Molding
- Thermoforming
- Blow Molding
- Extrusion
- Laminate
- Calendering/Coating
- Banbury
- Laminating

- **1967** Imperial Plastics founded and began manufacturing aerosol overcaps
- **1972** Entered the container packaging market
- **1983** Jack Berry purchased Imperial Plastics and renamed the company Berry Plastics
- **1988** Gilbert Plastics was the first of 26 acquisitions
- **1995** Entered the drink cup market
- **1997** Entered the consumer products market with the Packerware® acquisition
- **1998** Entered the closure market
- **2005** Achieved milestone of \$1 billion in sales by expanding into bottles, tubes and prescription vials
- **2007** Berry Plastics and Covalence Specialty Materials completed merger
- **2008** Entered wide mouth food bottle market with Captive Plastics acquisition

CONTAINERS

Berry Plastics is a leading designer and manufacturer of rigid open top packaging. Standard sizes range from 4 ounces to 5.5 gallons to ensure an appropriate container for any application. Round, non-round and tamper-resistant styles are available in white, clear or an array of colors.

FILMS

AGRICULTURE

Berry Plastics has a complete line of agricultural films—manufactured using advanced technology and materials to ensure they stand up to the harshest conditions—that includes a diverse array of Silage, Mulch and Greenhouse films, and Polypipe® tubing.

CUSTOM FILM

We offer complete packaging solutions for all your food, beverage and industrial needs, including Mono and Coex shrink bundling, and High Clarity and High Transverse Direction (HTD) shrink. Sheeting and bags are available in LDPE/LLDPE and HDPE materials, including Inserter bags, Converter grade sheeting, and our new Stretch Hooder product. We also make a full line of specialty films for produce, meat and cheese packaging.

STRETCH FILM

Our full line of stretch films, available in machine and hand-applied formats, provides an efficient and cost-effective solution for primary packaging and unitization.

As the world leader in the research, development and processing of pressure sensitive tapes, Berry Plastics continues to innovate and energize the industry. The world-leader in polyethylene-coated duct tape manufacturing, Berry produces market-leading brands such as Nashua® and Polyken® that have been known and trusted by professionals for more than 50 years. Our proven product lines, vast material expertise and leading-edge technological capabilities enable Berry to offer a wide variety of pressure sensitive materials to meet the needs of an extensive array of industries including: healthcare, HVAC, packaging, industrial, automotive, aerospace, building & construction, specialty converting and more.

In addition, Berry's Corrosion Protection line includes a full range of products to meet the global demands of the district heating, oil, gas, water and wastewater industries for the protection of key transmission and storage assets. The technologies that comprise the corrosion protection products include: Polyken® pipeline tape coatings, Covalence Raychem® heat shrink sleeves, Powercrete® liquid epoxies and AnodeFlex™ long-line impressed-current linear anodes, all which have a vital role in new and rehabilitated pipelines and storage tanks.

COATED PRODUCTS

BUILDING PRODUCTS

Berry's line of exceptional Building Products provides a comprehensive product solution for today's high demand construction industry. Over the last 30 years Berry Building Products has evolved into a leading manufacturer by meeting the demands of the industry by offering new and innovative products. The Berry integrated building products system includes Sheathing, Housewrap, Flashing, Roofing Underlayment and Construction Tape.

THE BERRY LINE OF BUILDING PRODUCTS:

- Thermo-ply Protective Sheathing
- StormBoard Performance Wall Panel
- Interior Board
- Rwrap Protective Housewrap
- WeatherTrek Housewrap
- Barricade Building Wrap
- OptiFlash Premium Butyl Flashing
- Contour Stretchable Flashing
- Barricade DryStep Roofing Underlayment
- Barricade Seam Tape
- Full line of HVAC tapes

FLEXIBLE PACKAGING

Berry Plastics offers an extensive range of coating & laminating capabilities for the Flexible Packaging industry. For over 50 years we have formed partnerships with customers and suppliers alike to develop innovative products for applications ranging from military packaging to food and healthcare items. From coating and laminating to inline flexographic and roto gravure printing, sheeting and slitting Berry is equipped to solve your packaging challenges with sure solutions in a wide range of widths and materials.
